Profile Summary

- Passionate and driven MBA professional with 4+ years of experience building and scaling broking and capital market products. Skilled in leveraging LLMs, market research, and domain expertise to build user-centric products. Experienced in leading cross-functional teams, managing the end-to-end product lifecycle, and translating customer empathy into actionable product strategy.

Experience

4+ Years

Product Manager | Zanskar Research Pvt Ltd (Nubra)

Dec'25 - Present

- Owning the user activation funnel (**KYC done → first trade**), with a focus on improving first-time user experience and early retention by identifying key drop-offs and user friction points
- Leading the end-to-end MTF **Margin Trading funding** product build, aimed at increasing revenue through higher funded trading activity, interest income, and improved investor cohort engagement

Product Manager | FrontPage Pvt Ltd (Y Combinator S21)

April'24 - Dec'25

- Spearheaded **E2E GTM strategy** for the company's first monetization layer, driving over **INR 15L+ in MRR** and achieving a 15%+ adoption rate within the existing user base
- **Expanded the Total Addressable Market** by launching a novel AI-powered holdings feed for retail investors that synthesizes disparate stock news, announcements, and concall insights, capturing **20%** of the platform's total DAU
- Owned the **E2E development** of an AI support agent, architecting the **prompts, vector embeddings, and RAG pipeline** to achieve **90%+** query resolution without escalation, a 75% reduction in resolution time for 95% of cases, saving the equivalent of one FTE
- Led the **product roadmap** for all AI initiatives—from user journey mapping to GTM, while leading development of new intelligent investor tools that synthesize diverse public and proprietary data into actionable, personalized insights

Associate Product Manager | FrontPage Pvt Ltd

April'22 - March'24

- Scaled TradeLab, a virtual **brokerage product**, from **6K to 150K DAU** by defining the product roadmap, leading cross-functional execution across design, engineering, and QA, and continuously improving the experience through user feedback and UX enhancements; doubled trades per user and achieved a **4.5+** Play Store rating
- **Designed and launched** an AI-powered trade journal using OpenAI's Whisper API, improving platform retention. Owned UX flows, user research, and execution, leading to **1L+ user adoption** and a **15%** increase in W4 retention by enabling seamless insight capture
- **Owned the E2E user journey** for the virtual trading platform, responsible for optimizing the **entire funnel** from user acquisition and activation to engagement and retention
- Led feature expansion by integrating diverse news sources and leveraging LLMs to generate market impact insights. This improved usability, driving DAU from **8K to 37K**, increasing W4 retention from **11% to 27%**, and boosting daily card swipes from **36K to 100K**

Product Analyst Intern | FrontPage Pvt Ltd

April'21 - July'21

- Enhanced platform reach through collaborations with top 16+ finance-focused creators, driving brand recognition
- Spearheaded creator acquisition, partnering with 15+ B-school investing funds and onboarding six of them

Education

MBA (Finance) | Goa Institute of Management, Goa

August'20 - March'22

- Member of a 12-member team at **Vinidhan - GIM's student investment fund**, selected from 250+ applicants
- Contributed to 20%+ CAGR portfolio growth through rigorous stock and sector analysis
- **Coursework:** Financial Modeling, DCF & Relative Valuation, Equity Research, Fundamental & Technical Analysis

B.E (Civil & Infrastructure Eng.) | Adani Institute, Ahmedabad

August'15 - May'19

Skills

- **Product & Growth:** Product Strategy, A/B Testing, Stakeholder Management, Market Research, Critical Thinking
- **AI & Technical:** SQL, Python, API integration, Prompt Engineering, Amplitude, n8n
- **Design & UX:** Figma, Wireframes, User Personas, User Empathy
